## WORK EXPERIENCE

### Foundry Co

Minneapolis, MN

#### Full Stack Software Engineer

Jun 2021 - Aug 2023

- Collaborated with UX and engineering teams to plan and implement numerous in-demand features across 6 concurrent apps, employing technologies such as Next.js, Node.js, Nest.js, and React.js
- Engaged in full-stack web development and maintenance for a high-traffic Java site serving over 50,000 users with Spring & Vue.js
- Reduced web page response times by over 10 seconds by refactoring a complex Express.js & MongoDB back-end to Nest.js & PostgreSQL, leveraging Prisma ORM for data management and Jest for unit testing
- Developed a Slack app within 2 weeks, providing an efficient solution for recording pool matches through Supabase serverless functions
- Enhanced features and resolved bugs for a biking mobile app on the App Store, utilizing React Native & Expo for the front-end and NestJS & PostgreSQL for the back-end, integrating Google Maps for route calculations
- Operated efficiently in a fast-paced startup environment, managing up to 8 different projects, requiring the use of various languages and tech stacks
- Designed and built quality RESTful APIs for various applications and integrated APIs across multiple projects
- Contributed to software design and conducted code reviews to improve code quality and maintainability

## PROJECTS

### Lil Networking: Networking Building and Management Multi-Platform App

May 2024 - Aug 2024

*The app designed to help people form intentional networking habits that lead to professional relationships*

- Designed and implemented a multi-platform Progressive Web App using Next.js and a native mobile app using Expo
- Created user-friendly interfaces using TailwindCSS and Material-UI to facilitate easy navigation and interaction
- Utilized OAuth login thru LinkedIn and Google for secure user authentication and personalized configurations
- Leveraged Prisma ORM for seamless interaction with PostgreSQL, enabling efficient data management and retrieval
- Set up push notifications using web-push to keep users engaged and informed about networking opportunities

## ACADEMIC EXPERIENCE

### University of Illinois Urbana-Champaign

Champaign, IL

#### Graduate Course Assistant

May 2024 - Aug 2024

- Assisted in teaching Database Systems, supporting students in their learning journey by answering database-related questions and monitoring their progress
- Designed, tested, and graded SQL, MySQL, MongoDB, and Neo4j machine problems to ensure alignment with course objectives and student learning outcomes
- Collaborated closely with teaching staff to enhance course content and delivery, contributing to a dynamic learning environment
